CCTV Sys Packages

16CH AVTECH Network CCTV System with 6 Cameras

16CH AVTECH Network CCTV System with 6 Cameras

The package is best for a factory, warehouse, a medium size supermarket, a big size residential house, or a school. The system is allowed to be extended to 16 security cameras. If 24 or 32 cameras are required for the system, its software supports up to 16 units of DVR.

The system comes with 16 channel AVTECH network H.264 digital video recorder, 2TB hard drive, 6 indoor or outdoor infrared nightvision cameras, appropriate power supply system and 6 cables. It does not include a display unit i.e. LCD screen. The total length of cables is 120 meters as 20 meters per cable. We will customize the length of each cable to suit your site. The extra cable may be added at a cost \$1 per meter approximately.

The system supports intelligent motion detection, multiplex operations, covert recording, New Zealand time format and day light saving, dynamic DNS, VGA display, USB flash drive backup, GUI, mouse operation, and more.

The significant feature of the system should be the fast network viewing both locally and remotely, including powerful CMS software, mobile surveillance, and other remote accessibility. You would download the User Manual for the detail.

This system uses plug and play connections for ease of setup. Each of these cameras comes with easy to install cables that plugs directly into the back of the DVR. We ensure that components and equipment are compatible.

4 Outdoor Cameras:

with built-in color high resolution 700TVL SONY CCD 673 chip, SONY Effio-e (NR, PM, MD) Vandal resistant IR Dome Camera.
IR 30M. CS 4-9mm, 12V DC.
Model 2VCT673SHT30

2 Indoor Cameras:

with built-in color high resolution 540TVL SONY CCD
Direction/Angle adjustable
4mm lens wide angle view, approx. 82 degrees or 6mm lens approx. 55 degrees
Infrared nightvision
Model 811RH04

16CH H.264 Network DVR:

Motion detection with motion area selectable and sensitivity adjustable
Multiplex: live view, record, backup, playback and network simultaneously
Email notification and FTP
Remote controller

iPhone, 3G cellphone surveillance

Model AVC798B

Hard Drive:

2TB SATA hard drive

Package Includes:

6 - indoor or outdoor camera with built-in color SONY CCD

1 - standalone 16CH network DVR

1 - 2TB hard drive

6 - power supply system

1 - licensed software

6 - 20-meter cable or customized cable 120 meters in total

1 - DVR user manual in CD

One year warranty

Technical support

Installation at extra cost

\$2990.00

16CH AVTECH Network CCTV System with 6 Cameras

Model: PK16CH6CAM

Entry Level 4 Camera CCTV System(PK4CHSHOP)

Model: PK4CHSHOP

Entry Level 4 Camera CCTV System

The package comes with 4 channel standalone digital video recorder (DVR), 4 indoor color high resolution cameras, and 500GB hard drive, plus installation pack.

This cost effective CCTV system is suitable for shops or offices. You will need a TV as the display unit for the system.

The system uses plug and play connections for ease of setup. Each of these cameras comes with easy to install cables that plug directly into the back of the DVR. What you need to do is to fit cameras into the ceiling then plug and play. We ensure that components are compatible.

The system comes with motion detection, motion area settings, time, schedule recording, quad and single views.

\$885.50

High Resolution 650TVL 4Cam 8CH Network CCTV Sys (PK8CH4CAM)

Model: PK8CH4CAM

This commercial grade system suits a commercial premise or a residential house. The package includes 8 channel standalone network digital video recorder (DVR), 1TB hard drive, 3 vandal resistant nightvision super high resolution 650TVL cameras, 1 indoor camera and accessories.

Varifocal 4-9mm cameras would suit multiple sites where you do not know what sizes of lens should be used initially. A good system needs appropriate sizes of lens.

The system uses plug and play connections for ease of setup. Each of these cameras comes with easy to install premade CCTV cables. What you need to do is to fit cameras into the ceiling or eaves then plug and play. We ensure that components are compatible.

Body Cameras

22x Zoom Camera 420TVL with IR Filter(2BTYN22Z)

Model: 2BTYN22Z

The camera comes with a built-in motorized lens, 22 times zoom from 3.9mm to 85.8mm. Its high density SONY CCD makes great quality of pictures.

The camera is capable of setting manual focus or auto focus. A keyboard controller or a DVR with the PTZ function can control the zoom in and out of the camera through its built-in decoder RS485. OSD menu allows the user to set up the baud rate, ID, auto/manual focus and auto gain control. The IR color filter ensures the camera working day and night, responding to infrared beam.

It was an expensive camera because the motorized lens was a costing component made in Japan. Due to massive production in China, this fantastic camera becomes affordable. Fast focus zoom cameras are used in Pan Tilt Zoom Dome cameras (PTZ). The following models available.

Night Camera 520TVL SONY CCD (2088)

Model: 2B2088

If you are looking for a high resolution camera for day and night security, it is the one. 0.01lux means that it works great in low light condition. A good lens would help the camera sending great images. There are switches of auto gain control, white balance and backlight compensation to meet your applications. The camera had been tested excellent at night.

Dome Camera with SONY 520TVL Audio (2DK5375A)

Model: 2DK5375A

Dome cameras are popularly used everywhere, shop, office, home and warehouse.

The multi-Axis swivel feature makes the camera flexible in applications. The camera comes with a built-in SONY 11 X DSP chip, getting 520 television lines. Its super high picture definition is the main feature of the camera.

The camera comes with 3.6mm wide angle 88 degrees field of view. However its lens can be replaced with 6mm, 8mm, 12mm and 16mm easily.

A microphone is built in the camera. It will be able to pick up audio within one or two meters distance indoor.

The camera may be not suitable to face a door entrance where backlight is strong. For door entrance cameras, you should consider wide dynamic range (WDR) cameras or SONY Effio cameras.

Indoor Dome Camera IR White 540TVL 4mm (2D811RHW04)

Model: 2D811RHW04

This camera was designed and entered CCTV market in the late 2006. Old design nightvision Dome camera gets IR Leds beside the lens and behide the glass. But the IR leds easily caused IR light reflects back making image blurred. The new design separates the lens and IR leds. The lens directly faces out.

The plastic case holds the camera that can be twisted to the direction you want.

IR Dome Camera AVTECH 500TVL (2DKPC133E)

Model: 2DKPC133E

Infrared radiation (IR) is electromagnetic radiation with a wavelength between 0.7 and 300 micrometres, which equates to a frequency range between approximately 1 and 430 THz. Its wavelength is longer (and the frequency lower) than that of visible light, but the wavelength is shorter (and the frequency higher) than that of terahertz radiation microwaves (Wikipedia).

Infrared enables security systems 24 hours surveillance, day and night. The IR LED effective range reaches up to 15 meters. The camera features high sensitivity in the low light condition, 0.1 lux / F2.0. High resolution 500TVL CCD creates excellent image quality.

The camera outputs clear and sharp pictures as it high resolution 520TVL. A security installer keeps buying this camera for shop and office systems as he said that no one complains this camera but people are impressed with its solution.

Package Content:

1 x IR Camera
1 x User Manual

Nightvision Dome Sony (2D811R)

Model: 2D811R

This camera was designed and entered CCTV market in the late 2006. Old design nightvision Dome camera gets IR Leds beside the lens and behind the glass. But the IR leds easily caused IR light reflects back making image blurred. The new design separates the lens and IR leds. The lens directly faces out.

The plastic case holds the camera that can be twisted to the direction you want.

Nightvision Dome Sony 4mm White(D811RW04)

Model: 2D811RW04

2D811RW is an updated model from 2D811R. It comes with built-in 1/3" SONY CCD and SONY DSP chip. The white casing suits light color environment while the manufacturer had considered the infrared reflection from the case so the inner side is blacked out. The infrared board has built-in 30 infrared leds comparing with 24 leds of 2D811R.

Some security guys are impressed with the picture quality, saying that the resolution should be 480TVL as other suppliers' products.

Varifocal Indoor Camera 540TVL (D8041H2)

Model: 2D8041H2

Varifocal 4-9mm indoor camera

Fixed lens cameras are now popularly used in CCTV systems. However very often camera angles have to be changed due to unexpected site conditions and customer expectations. For example, some business owners would like the cash register camera to see customer face then the camera needs to be wide angle. Some business owners prefer to view the cash register clearly then a focus angle is required. It is not wise to send the technician time to time to change the camera. So varifocal cameras should be used in a system.

4-9mm is usually ok to most applications.

Outdoor Cameras

**22x Zoom Outdoor IR Camera 80M 540TVL (2WBL689DA)****Model: 2WBL689DA**

The fantastic feature of the camera is 22 times motorized zoom. A motorized lens can be driven by RS485 control or a couple of touch control wires ranged from 3.9mm to 85.8mm lens. It might cost an end user a big fortune in the last time for a motorized lens. A massive production of motorized lens results the reduction of the price for the lens with the latest technology. Then the zoom camera becomes affordable to many ordinary people and small businesses now. Integrated with technologies of infrared and waterproof housing, the camera can operate day and night, exposed to weather without the problem of electronics components being damaged.

The viewing distance can be a few meters away to 100 meters or more. The infrared distance is up to 80 meters. The camera draws not much power during a day but would take 1000mA current at night due to its strong infrared. The power supply is suggested at 1500mA or 2000mA 12V DC. As its weight is nearly 2kg, a heavy duty bracket is at extra cost.

There are two types of zoom control available. The camera can be set up with its ID, baud rate, auto or manual focus by RS485A and RS485B. A normal DVR with PTZ function can control it directly. The additional option is its touch controls. We provide technical support for security companies, installers and end users.

As a high-end product, the camera comes with a super high resolution 540TVL SONY SUPER HAD CCD. The camera can be used in rural properties, lifestyle blocks, schools, long driveway, industrial areas, or a site with 50 meters to 120 meters viewing distance.

27x Zoom Outdoor IR Camera 80M 480TVL (2W270)

Model: 2W270

The fantastic feature of the camera is 27 times motorized zoom. A motorized lens can be driven by RS485 control or a couple of touch controls ranged from 3.9mm to 105.3mm lens. It might cost an end user a big fortune in the last time for a motorized lens. A massive production of motorized lens results the reduction of the price for the lens with the latest technology. Then the zoom camera becomes affordable to many ordinary people and small businesses now. Integrated with technologies of infrared and waterproof housing, the camera can operate day and night, exposed to weather without the problem of electronics components

being damaged.

The viewing distance can be a few meters away to 100 meters or more. The infrared distance would be 30 -50 meters. The camera draws not much power during a day but would take 1100mA current at night due to its strong infrared. The power supply is suggested at 1500mA or 2000mA 12V DC. As its weight is 2kg, a heavy duty bracket is at extra cost.

There are two types of zoom control available. The camera can be set up with its ID, baud rate, auto or manual focus by RS485A and RS485B. A normal DVR with PTZ function can control it directly. The additional option is touch controls. We provide technical support for security companies, installers and end users.

540TVL Outdoor Camera 20M IR(2WK7856)

Model: 2WK7856

This new waterproof nightvision camera is replacing other cameras in the catalogue due to its great picture quality. It comes with 1/3" Hi-Res CCD and SONY 11X DSP chip. It turns to monochrome when the lighting condition is under 5 lux. It is capable of having great performance at 0.05lux even without IR light. High waterproof level IP67 is another feature.

700TVL 2.8-12mm Outdoor Infrared Camera (2WCT673A40B)

Model: 2WCT673A40B

Outdoor Infrared Camera 700TVL 2.8-12mm

This super high resolution camera comes with SONY Effio-E DSP and SONY 673 CCD chip. It has on screen setup to suit the site condition.

Another main feature is the 2.8-12mm varifocal lens. 2.8mm size of lens would have super wide angle up to 110 degrees field of view. At the other end of adjustment, 12mm give a focus narrow view, that is suitable for a long drive way. It can focus on a gate 15 -20 meters away, getting vehicle registration number. The camera provides high flexibility for installation, both for new people and for installers.

**Better Nightvision Outdoor Camera (2W808104)**

Model: 2W808104

Technology is always getting better and better. 48 pcs of 5mm diameter blue infrared lamps are built in this camera, getting 30 meters to 50 meters night viewing distance. Its black color casing is purposed to avoid IR reflection from the camera itself.

The outdoor camera integrates technologies of outdoor water proof and infrared lighting. It replaces a camera with a housing fitted on heating and a fan, plus providing extra infrared lighting source. Its high waterproof rate ensures that it works in the condition of heavy rain. Its operation temperature at minus 20 degree to 50 degree means it works either cold winter or hot summer. 1/3 inch Sony CCD is built in the camera sending 25 frames of clear quality picture per second, days and nights.

A 12V 1000mA DC adaptor is suggested for its power supply.

Outdoor B/W IR Camera SONY CCD 480TVL (2W1351)
Model: 2W1351
<p>A good camera can turn color to B/W at low light condition. Color camera with 1lux or more will see nothing at night. Recently manufacturers make twin-camera in one, color and B/W. The price is higher than one camera. If the security is mainly at night, this B/W CCD camera would be a great option. 480TVL high resolution is the main feature of the camera.</p> <p>This outdoor camera integrates technologies of outdoor water proof and infrared lighting. It replaces a camera with a housing fitted on heating and a fan, plus providing extra infrared lighting source. Its high waterproof rate provides the possibility that it works in the condition of heavy rain. Its operation temperature at minu 20 degree to 50 degree ensures that it works in cold winter and hot summer. 24 IR lamps compensate low illumination at nights. 50 degrees field of view is from 6mm lens. 1/3 inch Sony CCD is equipped in the camera sending 25 clear quality images per second, days and nights.</p>

Outdoor Camera SONY CCD 48 IR Leds 30M (7862)

Model: 2WK7862

The main value of the camera should be 1/3" SONY CCD and its SONY 11X DSP chip. 48 IR leds target 30 meters infrared distance. It turns to monochrome when the lighting condition is under 2lux. It is capable of having great performance at 0.1lux even without IR light. High waterproof level IP67 is another feature. The strong IR night vision should be the selling point of this model. 6mm lens get 50 degrees field of view, similar to human's eye sight.

Outdoor IR Camera with SONY CCD (814) 16mm

Model: 2W814L16

The main feature of the camera is the separation of the infrared and the lens. People who have experienced outdoor IR cameras, found that IR reflection is a frustrating technical problem - clear pictures during a day, fuzzy and bright at night.

An outdoor camera would get nothing to view at night if it does not have a built-in IR filter, or its minimum illumination is too high. Besides these reasons, one popular problem is the IR reflection resulted by the IR position. This camera is to solve the problem.

The bigger size of the lens ensures getting better picture than a board lens.

The strong IR draws 750mA current of 12V DC when the IR is on. Suggest 1A or 1.5A power supply for the camera.

The effective IR distance is about 20 - 40 meters.

The deep/black color of the case would reduce IR or light reflection as well as the hidden purpose. Feel free to paint its exterior to white if your site needs this. The outer corrugated design is not too fancy but is for the heat radiation.

Is it really ugly? No. It is a nice camera.

Outdoor Nightvision Camera IR 20M 520TVL SONY DSP (2WK7855L04)

Model: 2WK7855L04

This new waterproof nightvision camera is replacing other cameras in the catalogue due to its great picture quality. It comes with 1/3" Hi-Res CCD and SONY 11X DSP chip. It turns to monochrome when the lighting condition is under 5 lux. It is capable of having great performance at 0.05lux even without IR light. High waterproof level IP67 is another feature.

Outdoor Nightvision Camera Sony Color CCD 36 IR Leds (2W8032)

Model: 2W8032

It is an excellent camera that we have been using in many projects. Among 5000 camera manufacturers, we found that only a few outdoor cameras do have IR filter. We select one with reliable IR leds, high waterproof level & great IR filter.

This outdoor camera integrates technologies of outdoor water proof and infrared lighting. It replaces a camera with a housing fitted on heating and a fan, plus providing extra infrared lighting source. Its high waterproof rate provides the possibility that it works in the condition of heavy rain.

Its operation temperature at minu 20 degrees to 50 degrees ensures that it works in a cold winter and a hot summer. 36 IR lamps compensate low illumination at nights. 50 degrees field of view is the size of 6mm lens. 4mm lens is also available getting 82 degrees wide angle of view. 1/3 inch Sony CCD is built in the camera sending 25 clear quality images per second, days and nights.

Outdoor Strong IR Camera 12mm Lens with SONY CCD (2W555L12)

Model: 2W555L12

The built-in 16mm or 12mm is designed for long range applications. Strong infrared would improve the low illumination at a distance of 30 to 35 meters. It turns to black and white at night when the illumination is low. Waterproof level is at IP 66. Note that the camera requires heavy duty bracket to hold and a 12V 1000mA DC adaptor is suggested for power supply. Examples of applications are long drive way of residential and focusing a gate 30 meters away.

The outdoor camera integrates technologies of outdoor water proof and infrared lighting. It replaces a camera with a housing fitted on heating and a fan, plus providing extra infrared lighting source. Its high waterproof rate provides the possibility that it works in the condition of heavy rain. Its operation temperature at minus 20 degree to 50 degree ensures that it works in cold winter and hot summer. 1/3 inch Sony CCD is built in the camera sending 25 clear quality images per second, days and nights.

Usually 12mm and 16mm sizes of lens are available for options.

Vandal Resistant Camera 420TVL White 4mm(2V9866L04)

Model: 2V9866L04

The camera case is metal, like a Suit of Armor. The enclosure is designed to protect the camera from vandals and criminals. Dome enclosures have become less obtrusive, more stylish and indestructible as the technology has advanced. It is best for outdoor that public is accessible. It withstands high pressure or strike like a hammer. A tiny allen key is required to install or remove it. Its angle is adjustable.

Many business owners of restaurants, Laundromats and bakeries love this camera as its enclosure protects the camera from steam, water and oil. Its surface can be cleaned easily. Infrared lighting improves vision at nights, available distance at 20-30 meters. We also found that the camera can be used largely in residential houses. Cables are hidden inside the ceiling, tidy. It is a hot sale camera because it integrates advantages of waterproof, nightvision and vandal resistant.

More people are looking for white case cameras now that should be a trend.

4mm wide angle camera is usually used for a parking area in front of a premise or at the back of a premise where a wide area needs to be covered. The camera is not suitable for a long drive way or in a hallway.

Vandal Resistant IR Camera with SONY Effio DSP 700TVL 2.8-12mm

Model: 2VCT673SHT30B

Products will be available after 20 March 2012. The pre-order is accepted.

Vandal Resistant IR camera 700TVL resolution with SONY Effio 2.8-12mm varifocal lens

The main feature of this super high resolution 700TVL camera comes with 2.8mm to 12mm varifocal lens. The camera is possible to cover a big area with a field of view over 90 degrees at 2.8mm. The camera lens can be adjusted to 12mm when it wants to focus on the a gate 15 meters away.

The camera comes with built-in SONY Effio DSP and 673 CCD. It can work in a low light condition. Waterproof, vandal resistant and nightvision are important features. It has fantastic night vision not only because of its 36 infrared LEDs, but also from its low illumination feature of SONY Effio.

If the application does not need 2.8mm or 12mm, a similar model 2VCT673SHT30 with 4-9mm is suggested.

Vandal Resistant IR Dome Camera 540TVL 9-22mm Varifocal(2VK5956L

Model: 2VK5956L922

New Zealand is a country with low density population. Vandal resistant, night vision and weatherproof are important features of a camera. Security events happen usually at night outside a premise. You can easily source a vandal resistant nightvision dome camera with 4-9mm varifocal lens.

However 4-9mm range is mainly for short distance. It will not be able to identify a person or a car registration number over 15 meters. To achieve facial image capture or vehicle plate number imaging, people are suggested to take a box camera with a lens plus a big camera housing. Obvious it will become a target. people are not impressed with the size of a housing. We receive requirements of applications including car park security, public street monitoring and apartment big yard systems that need 9-22mm cameras.

The cover of the camera can be opened by special key. The maintenance is simple and possible in the future. We also found that vandals are not familiar with the camera when other cameras were removed by vandals while this camera remained intact.

**Vandal Resistant Nightvision Dome Cam Sony CCD 12mm (2V939R12)**

Model: 2V939R12

Vandal Resistant Nightvision Dome Camera Sony CCD

The camera case is metal, like a Suit of Armor. The enclosure is designed to protect the camera from vandals and criminals. Dome enclosures have become less obtrusive, more stylish and indestructible as the technology has advanced. It is best for outdoor that public is accessible. It withstands high pressure or strike like a hammer. A tiny allen key is required to install or remove it. Its angle is adjustable.

Many business owners of restaurants, Laundromats and bakeries love this camera as its enclosure protects the camera from steam, water and oil. Its surface can be cleaned easily. Infrared lighting improves vision at nights, available distance at 20-30 meters. We also found that the camera can be used largely in residential houses. Cables are hidden inside the ceiling, tidy. It is a hot sale camera because it integrates advantages of waterproof, nightvision and vandal resistant.

The waterproof level IP65 allows the camera being installed outdoor completely exposed to weather. Among a number of manufactures, I selected this manufacture due to zero faulty rate of IR leds, no complaints received of the IR reflection.

Vehicle Camera - Vandal Resistant IR Wide Angle(2V817A)

Model: 2V817A

The camera is particularly perfect for vehicles, whatever cars, buses or TAXI cabs with the following features.

- Small and nice appearance
- Vandal resistant casing
- Infrared nightvision
- Audio capability (BNC connection)
- Silver color casing (you can change the color with spray paint if required)

An allen key is to open the case holder then the installer can adjust the camera view direction.

12V DC is the power supply that most vehicles come with. For buses, a 24V AC to 12V DC adaptor is required to get the correct power for the camera.

1/3 inch SONY CCD is built in the camera to ensure the picture quality.

Hidden & Mini Cameras

B/W Infrared Camera(2H9716BW)

Model: 2H9716BW

Absolutely great picture at night or in low light condition. You know that a good camera can turn to black and white in low light condition.

The lens is far away from infrared and no glass is placed in front of infrared. So this design solves a problem of possible infrared reflection.

Specifications:

Item Code: 2H9716BW

1/3" AI PROS CCD

420TVL

3.6mm lens

DC 12V, 100mA

Dimensions (mm): 65 (L) x 38 (W) x 57 (H)

Weight (g) 88

It comes with a built-in bracket. It presents features of tidy, easy mounting and great flexibility of changing the lens.

Board Camera - Your Creativity(2H208D04)

Model: 2H208D04

Make use of your creativity to provide a housing for the camera. A board camera is actually the core of a camera. It is purposed for people who wants to make a particular housing for it. Some would put a board camera in a smoke sensor, a light motion sensor, or somewhere it would fit. The size is 32mm x 32mm.

Speed Dome PTZ

270 x Zoom High Speed Dome (2SP9027L)

Model: 2SP9027L

PTZ cameras can pan, swivel horizontally through 360 degrees, tilt, swivel vertically through 90 degrees, and zoom in and out. The pan, tilt and zoom functions can be controlled either manually by a DVR or a controller, or by a pre-programmed sequence.

It is a professional PTZ high speed dome camera. The horizontal speed can be up to 360 degrees per second. High resolution 480TVL with minimum illumination 0.02 lux outputs great picture. It turns B/W from color in low light condition, called Day/Night function. 128 presenting positions with built in decoder enables the installer to program the camera pointing to specific positions. 270 times zoom is a great feature that the camera has the capability of sighting over human being. Its private zone masking function enables private zone masking, direct proportion enlargement or shrinking to lens zooming level.

3D JoyStick Keyboard Controller (48DS781MKB)

Model: 48DS781MKB

3D JoyStick Keyboard Controller

The keyboard is a universal keyboard of security monitoring series, which can control the ball-type integrated camera of all kinds protocols matrix, which has been equipped with Joystick that can control the revolving of the camera and the zoom magnification of lens. With the LCD screen and the function of back-light, it can display the current operation order, the control protocol name, the current dome ID, the current monitor ID and the state of joysticks.

The user can control the CCTV system more easily with the joystick and the LCD screen.

- RS485 Bus Kune, and a keyboard can connect 31 domes at most in the direct control mode

- Can be compatible with all kinds of protocols

- Can control the Iris Focus and Zoom

- Can set and call the preset, run the scanning the pattern and the tour

- Can control the matrix and through which can control the dome indirectly

- Equipped with the 3D navigation key and a LCD screen

- The LCD can display the current operation order, the control protocol name, the current dome ID, the current monitor ID and the state of joy sticks

- Infrared ray emission, emission the same data & content as RS485

Specifications

PTZ 2D Controller (48PTZKEY8000)

Model: 48PTZKEY8000

Description of Main Functions and Features

1. Photoelectric insulated RS485 controlling mode is adopted for the output of the keyboard, which provides strong anti-jamming and long-distance transmission.
2. The keyboard can control up to 128 Speed Domes or Decoders etc terminal devices. The address of the Speed Domes or Decoders can be set within the range of: 1~255.
3. Variable-speed operation can be applied to the built-in Pan/tilt of the Speed Dome through the keyboard.
4. Lens zooming, focus and iris can be manually controlled through the keyboard.
5. Manually or automatically control can be applied to Speed Dome through the keyboard.
6. Joint-control can be realized by using the Controlling keyboard together with one DVR mainframe or embedded hard disk VCR.
7. Preset positions can be configured and invoked in Speed Dome through the keyboard.
8. Tour groups can be configured and run through the keyboard.
9. Left and right limiting positions can be configured and Left & right scan can be run through the keyboard.
10. Home position can be configured, activated and idled through the keyboard.

11. Light and rain brush etc ancillary devices can be turned on or off through the keyboard.

PTZ Keyboard Controller with Joystick (48PTZKEY102)

Model: 48PTZKEY102

PTZ Intelligent Keyboard DE-BS8000

Item Code: 48PTZKEY102

This keyboard is a functional PTZ control device working with multiple protocol.

It can control PTZ cameras up to 1024. It is the best controller for the high speed PTZ DE-9027L.

Specifications:

Display unit: LCD

Baud rates: 1200, 2400, 4800, 9600 bps

Protocol: Pelco-D, Pelco-P and Matrix

Control output: RS485

RS232 control: yes

Data format: N, 8, 1

Power Supply: AC/DC 9-12V

Maximum number of camera controlled: 1024

16CH H.264 Dahua Standalone DVR (1604LEA)

Model: 1DH1604LEA

16 channel video inputs and 4 channel audio inputs. The 1st and 9th video channels can support max D1(4CIF) realtime recording and other channels can support CIF realtime recording. It can support VGA, HDMI and USB2.0.

Features

> New standard for entry level DVR with high performance and competitive price

> H.264 compression algorithm ideal for standalone DVR

> Realtime live display up to 16 cameras with 720P high definition

> 400/480 fps recording for CIF and special channel D1(4CIF) realtime recording

> Dual encoding streams flexible for network transmission and mobile phone monitoring
> Pentaplex function: live, recording, playback, backup & remote access

> 16 channel simultaneous playback
> Smart video detection: motion detection, camera blank, video loss
> Smart camera settings: privacy masking, camera lock, color setting and title display
> With Dahua Speed Dome, support 3D intelligent positioning
> Alarm triggering screen tips, buzzer, PTZ preset, e-mail, FTP upload
> Powerful network software: built-in web server, multi-DVR client, MSS(mobile phone surveillance software) & CMS

16CH H.264 DVR D1 Real Time(1AE9916)

Model: 1AE9916

16CH H.264 DVR D1 Real Time

16CH H.264 DVR, 400fps all channel 4CIF resolution recording, mouse operation, USB backup, VGA, AV, HDMI, 12V DC.

Product Description

1. Video Compression: H. 264. Audio compression: ADPCM.
2. Supports iPhone, Windows, BlackBerry, Symbian, Android 3G mobile phone surveillance.
3. Video input 16BNC, loop input 16BNC&video output 2CH BNC, 1CH VGA, 1CH HDMI; Audio input 16RCA&audio output 1RCA; 16CH Alarm in&4CH Alarm out.
4. Support 16CH full D1 real time recording and playback.
5. Recording Modes: Manual, auto, dynamic detection and alarm trigger.
6. Super strong network service, support DHCP, PPPOE, FTP, DNS, NTP, UPNP, EMAIL, IP authority etc.
7. Provide domain service including 3322, dyndns, oray, myq-see etc.; WEB, client, CMS platform; 1 RJ45, 10M/100M/1000M self-adaptive LAN port.
8. U disk, network, USB mobile HDD backup; Full duplex standard 485 connection port, support 19 kinds of PTZ

protocols.

9. Mouse, remote control, network, VGA, 485 two-way PTZ control; Support 3G, WiFi, HDMI functions; Built-in DDNS server.

10. Adopt electric circuit protect design which effectively avoid breakdown by static electricity and lightening.

11.2 USB2.0 ports; Dual stream.

12. MAX support 8×; 2TB SATA HDD.

13. Support mouse, remote control, panel, keyboard controller operation.

14. Language: Support 26 kinds of languages.

16CH H.264 DVR with 500GB HDD(1LAH264)

Model: 1LAH264

Lilin DVR comes with the latest technology H.264 compression format. A built-in DVD burner would help its owner to backup footage time by time.

Its outputs are analogue video to a TV and/or VGA output to a PC monitor. Its compact size is suitable for space saving.

Specifications and Manual

H.264 compression technology keeps best recording quality while it gets high compression rate then storage saved.

PVH-AH264 16ch DVR uses the super high speed DSP IC (Digital signal Processor) for its center of compression.

Specification

Item Code: 1LAH264

Video In: 16 BNC Video In Jacks

Audio In: 4 RCA Audio In Jacks

Monitor Output: 1

Audio Out: 1 earphone output Jack

VGA Output: VGA D-SUB, Resolution 1024 x 768

Backup Function: Supports 2 USB

Ethernet: RJ45 (100/10Mbps Ethernet)

Weight: 4.5Kg / 5.5Kg

Size: 20.5cm x 34cm x 19cm (LxWxD)

H.264 Hardware real time compression /decompression

Resolution: 704 x 576 (PAL)

Monitoring Speed: 16 channels 400 fps(PAL)

Recording Speed: 200MAX ~ 167MIN fps (PAL)

Image Compression Rate: Dynamic Compression Rate = 40:1~240:1

Recording Quality: 10 Levels Adjustment

Audio Recording: 24Kbps ADPCM recording mode.

Live Audio Monitoring: Support Live Audio Monitoring.

Internet Function: Supports TCP/IP functions. Supports Internet / LAN remote

Multi-task Capability: Supports Recording, Playback, Remote Monitoring and Live

Monitoring at the same time.

Playback Display: Full Screen display, 4 split windows display.

Firmware Updatable

Package

1 x DVR

1 x Power Cable

1 x User manual

1 x DVD Burner

2 x Goggles (BNC)

1 x 500GB HDD (installed)

One year RTB warranty

Model: 1FH1648

16 CH H.264 PENTAPLEX DVR

- 1.Advance H.264 technology offers highly compressed file size capability for maximum recording time.
- 2.GUI interface function that can be operated from front panel / mouse / remote controller.
- 3.Multi motion detection areas
- 4.Max. 480 fps real-time recording frame.
- 5.Pentaplex function support: Recording/Backup/Playback/Network and Mobile Surveillance simultaneously.
- 6.Support 4-ch audio, support 3-ch audio/video synchronization. 1-ch two way audio.
- 7.Remote backup and playback via IE browser.
- 8.Support Host USB backup
- 9.Auto copy video player on to storage device during backup process.
- 10.Independent channel setting on recording fps, resolution, contrast, and brightness.
- 11.Smart recording schedule setup for each channel
- 12.Adjustable XGA resolution output setting.
- 13.Single channel or multi-channel video backup capability.
- 14.Max. 16 channels connection via IE browser
- 15.Independent time duration setup of each backup file.
- 16.Email notification when alarm is triggered.
- 17.Support iPhone, Android, Windows Mobile and Symbian.

4CH H.264 AVTECH DVR (AVC792)

Model: 1AVC792

AVC792 is a 4CH H.264 real time Digital Video Recorder. It greatly maximizes the video quality and minimizes the file size (expand the storage capacity) with the feature of H.264 video compression technology. To quickly backup, the USB port is built in for your convenience, or the network backup is also available. It also supports the connection to the SATA HDD & keyboard controller for your

easy operation.

4CH H.264 DVR w Motion Detection & USB Backup (1AVT9603)

Model: 1AVT9603

AVT903V Digital Video Recorder combines compact size, good quality features and a competitive low price. Motion detection is processed by its program. You do not need an alarm sensor to complete detection motion.

Viewing can be one channel or at quad mode. The 4CH DVR uses H.264 compression for a smooth refresh rate and maximum recording time. With the built-in motion detection you will have the peace of mind ensuring that the events will be caught and recorded. The on screen display makes setting up the DVR user friendly. You can do backup of video footage through USB port with a USB flash drive. It is simple and easy to copy video to a CD then hand over it to police if required.

AVT903V comes with much more features than previous model AVT771B and AVD775.

It supports VGA output that means you can use a LCD monitor as the display unit simultaneously display on a TV. Multiplex, mouse operation, D1 704 x 576 pixels recording, and intelligent motion detection, are some advanced features of this DVR.

4CH H.264 Network DVR AVTECH (AVC791B)

Model: 1AVC791B

AVC791B, a new released 4CH H.264 DVR, features in its graphical OSD display with USB mouse control. For remote surveillance, mobile surveillance is applicable to many popular mobile platforms, such as iPhone, BlackBerry, WinCE & Androld. Video backup can be made via the USB port and network. It comes with a remote controller and supports VGA output for a LCD monitor. It works with a USB mouse.

It is the main product we import and sell. Usually we can supply 10 to 50 units to security service providers in one order.

The differences between AVC791B and AVC791A are

AVC791B comes with VGA and AV outputs simultaneously. AVC791A supports either VGA or AV.

VGA display resolution 1600x1200 pixels while 1024 x 768 pixels are the VGA resolution of AVC791A.

AVC791B can assign recording frame rates to each channel.

8CH H.264 DVR (1AE8808)

Model: 1AE8808

8CH H.264 DVR

8CH H.264 DVR, 50fps at 4CIF resolution for all channels, mouse, USB backup, 12V DC.

-

Full Functions: HDMI (1080P), 3G, WIFI, SD card.

-

Novel Appearance: adopt brand new design idea and fashionable blue color as the main color.

-

Recording Resolution: 4ch: 4ch full D1 (100 fps).

- 8ch: 2ch D1 (50 fps) + 6ch CIF (150 fps); or 8ch D1 (50fps).

-

Novel Playback Mode: skip decode, average decode, full decode.

-

Backup Way: support U disk, SD card, USB mobile HDD, USB-RW, network

-

With built-in DDNS server which realizes network monitoring easily.

-

Support preview and playback image zooming function.

-
Mobile Surveillance: support all kinds of 3G mobile phone surveillance.

-
Language: support 26 kinds of languages.

-
Adopts electric circuit protection design which effectively avoid breakdown by static electricity and lightning. The unique triple Watchdog Timer function ensures the stability of the DVR.

Special Features:

Video compression: H.264

Audio compression: G.711A

Supports iPhone, Microsoft's Windows, RIM's BlackBerry, Symbian, Google's Android 3G mobile phone surveillance

Video input: 16BNC

Video output: 1BNC and 1VGA

Audio input: 4RCA

Audio output: 1RCA

1-channel alarm-in and 1-channel alarm-out

Support 2 channels D1, 6-channel CIF real time or 8 channels D1, 12fps recording and playback

Recording modes: manual, timing, alarm, motion detection

Super strong network service

Supports DHCP, PPPOE, FTP, DNS, NTP, UPNP, E-mail, IP authority and more

Provide domain service including 3,322, dyndns, oray, myq-see, web, clients, CMS platform 10/100Mbps self-adaptive LAN port

U-disk, network, USB mobile HDD backup

Full duplex standard 485 connection port

Supports 19 kinds of PTZ protocols

Mouse, remote control, network, VGA, 485 two-way PTZ control

Supports 3G, Wi-Fi function, HDMI (optional function), built-in DNS server

Adopt electric circuit protect design which effectively avoid breakdown by static electricity and lightening

Two USB2.0 ports, dual stream

Supports 2 x 2TB SATA HDD

Supports mouse, remote control, panel, keyboard controller operating

Language: supports 26 kinds of languages

8CH H.264 DVR with HDMI (1AE8808MI)

Model: 1AE8808MI

8CH H.264 DVR

8CH H.264 DVR, 50fps at 4CIF resolution for all channels, mouse, USB backup, 12V DC.

-

Full Functions: HDMI (1080P), 3G, WIFI, SD card.

-

Novel Appearance: adopt brand new design idea and fashionable blue color as the main color.

-

Recording Resolution: 4ch: 4ch full D1 (100 fps).

- 8ch: 2ch D1 (50 fps) + 6ch CIF (150 fps); or 8ch D1 (50fps).

-

Novel Playback Mode: skip decode, average decode, full decode.

-

Backup Way: support U disk, SD card, USB mobile HDD, USB-RW, network

-

With built-in DDNS server which realizes network monitoring easily.

-

Support preview and playback image zooming function.

-

Mobile Surveillance: support all kinds of 3G mobile phone surveillance.

-

Language: support 26 kinds of languages.

-

Adopts electric circuit protection design which effectively avoid breakdown by static electricity and lightning. The unique triple Watchdog Timer function ensures the stability of the DVR.

Special Features:

Video compression: H.264

Audio compression: G.711A

Supports iPhone, Microsoft's Windows, RIM's BlackBerry, Symbian, Google's Android 3G mobile phone surveillance

Video input: 16BNC

Video output: 1BNC and 1VGA

Audio input: 4RCA

Audio output: 1RCA

1-channel alarm-in and 1-channel alarm-out

Support 2 channels D1, 6-channel CIF real time or 8 channels D1, 12fps recording and playback

Recording modes: manual, timing, alarm, motion detection

Super strong network service

Supports DHCP, PPPOE, FTP, DNS, NTP, UPNP, E-mail, IP authority and more

Provide domain service including 3,322, dyndns, oray, myq-see, web, clients, CMS platform 10/100Mbps self-adaptive LAN port

U-disk, network, USB mobile HDD backup

Full duplex standard 485 connection port

Supports 19 kinds of PTZ protocols

Mouse, remote control, network, VGA, 485 two-way PTZ control

Supports 3G, Wi-Fi function, HDMI, built-in DNS server

Adopt electric circuit protect design which effectively avoid breakdown by static electricity and lightening

Two USB2.0 ports, dual stream

Supports 2 x 2TB SATA HDD

Supports mouse, remote control, panel, keyboard controller operating

Language: supports 26 kinds of languages

**8CH H.264 Network DVR (1FH8160B)**

Model: 1FH8160B

Features -

- 1.Advance H.264 technology offers highly compressed file size capability for maximum recording time.
- 2.GUI interface function that can be operated from front panel / mouse / remote controller.
- 3.Multi motion detection areas
- 4.Max. 240 fps real-time recording frame.
- 5.Pentaplex function support: Recording/Backup/Playback/Network and Mobile Surveillance simultaneously.
- 6.Support 4 audio inputs and 8 video inputs synchronously.
- 7.Remote backup and playback via IE browser.
- 8.Support Host USB backup
- 9.Auto copy video player on to storage device during backup process.
- 10.Up to 720x480 D1 recording resolution.
- 11.Independent channel setting on recording fps, resolution, contrast, and brightness.
- 12.Smart recording schedule setup for each channel
- 13.Adjustable XGA resolution output setting.
- 14.Single channel or multi-channel video backup capability.
- 15.Max. 16 channels connection via IE browser
- 16.Independent time duration setup of each backup file.
- 17.Email notification when alarm is triggered.

8CH H.264 Network DVR AVTECH (AVC796B)

Model: 1AVC796B

A new released 8CH H.264 DVR, features in its graphical OSD display with USB mouse control, For remote surveillance, mobile surveillance is applicable to many popular mobile platforms, such as iPhone, BlackBerry, WinCE & Android. Video backup can be made via the built-in DVD writer, USB port, and network.

Features

USB Mouse Control with GUI OSD

The GUI OSD interface is provided and used with your USB mouse.

Intelligent Motion Recording

Only the channel with an event will be recorded to effectively save a significant amount of hard disk space and have the maximized recording time.

Supports pre-alarm recording.

All-Channels Playback Simultaneously

Supports all-channels playback simultaneously to quickly preview what happened in each channel.

Remote Surveillance

Mobile surveillance via many popular mobile platforms, such as iPhone, BlackBerry, WinCE, J2ME & Android are supported to fulfill various user demands.

Network surveillance via the licensed software "Video Viewer", Internet Explorer, Mozilla Firefox or Google Chrome web browser, and QuickTime player is supported with up to 10 users' login simultaneously.

Remote Independent Operation

Channel switching & video playback are fully independent from the local site, allowing users to have private image monitoring remotely.

H.264 Video Compression Technology

Highly improves video quality for live, recording, and network.

Recording file size is minimized for longest recording time.

Lower bit rate required for fastest network transfer.

Multiplex

Allows live display, record, playback, backup and network operation at the same time.

Backup Function

Supports DVD writer (optional), USB flash drive and network backup.

Audio / Video Support

4 audio-in, 2 audio-out to record sounds.

VGA interface built-in.

**Mini DVR Digital Video Recorder For CCTV System (1DVRSD)**

Model: 1DVRSD

The mini SD realtime DVR is a newly designed DVR, with SD card as storage medium, convenient, built-in battery and motion detect recording. It is more helpful to save the capacity of SD card and can provide access to the maximum SD card of 32GB. This video recorder can create much more and more effective video files; the maximum resolution is up to 720x576. The function of motion detecting and recording is more efficient to shoot useful files. This new design is also equipped with programming recording function and the standby model is also available when recording is not in demand, which can make use of the space of SD card in a more efficient way due to its automatically overlaying and never stopping.

1. Saving in SD: Max 32G
2. High definition D1:720x576
3. Sensitiveness and adjustable regions
4. Digital kernel ensures the fluent recording which is up to 30fps
5. Auto recovering, unlimited storage
6. PAL system
7. The voiced VIVO can be used by connecting with the external devices such as DVD and TV

Power:5-20V 200mA DC input

Video Rec: AVI

Video output: PAL 1V PK-PK, 75ohm

Video format: MPEG Video:720x576 (D1), 640x480, 320x240

Frame rate: 15fps, 20fps, 25fps and 30fps

DVR cards

16 Channel DVR Card(41LR8160)

Model: 41LR8160

Features:

PCI-Ex High Speed Interface;
 10bit Comb Filter; Higher Video Quality;
 H264 Compression Method, Digital WaterMark Inside;
 16 Channels per Card, Support 32 Channels at Most;
 Support Network Client Side 32 Channels previewing;
 Support IE Browser, Dynamice DNS;
 Support High ResolutionVGA display, Automaticly distinguish 1024x768,1280x1024,1440x900;
 Support VGA-To-Monitor Function;
 Support Video Previewing Disable Function, protecting private secret;
 Support MediaPlayer playback backed-up files;
 Support Motion-Detection, Alarm Recording, Schedule Recording etc;
 Support Pre-Recording Function when Motion-Detection;
 Support Motion-Detection Sensibility adjust respectively;
 Support Video Lost Voice Alarming, Motion Detected Voice Alarming;
 Support Email transferring;
 More reasonable Hardware Designing, System more stable.

System requirement

●CPU: Intel Dual 1.6G for 16 channels, Dule 2.0G for 32 channels.
 ●Memory: 1G for 16 channels, 2G for 32 channels.
 ●VGA Card: 128M Displaying Momory
 ●MainBoard: Intel Chipset With PCI-Ex Slot.

16CH Linux DVR PCI Card (41FH8216)

Model: 41FH8216

DE41LEX8216 DVR is an all-in-one and simply plug-to-use DVR package, based on market leading built-in Linux and MPEG-4 technology. DE41LEX8216 DVR PCI Express Card provides high speed surveillance recording at 12fps for each camera at D1 resolution 720x576 pixels. It supportd up to 16 video input, 16 audio inputs, high performance monitoring and recording, and fully network remote access capabilities. This package comes with a DOM (Disk On Module) module which embeds Linux-based DVR system. You only need to insert the DOM module into the IDE slot and the Video Capture board into the PCI/PCI Express slot of your PC, then it will function as a full-feature network DVR system.

Features

- High recording resolution 720 x 576 pixels per channel
- High recording rate 200fps for 16 channels
- No need to purchase Windows XP that also results hassles of Windows Update and virus
- No need to install Linux operation system yourself. The DOM does. It takes 5-10 minutes to complete the hardware installation. It will automatically load Linux system and ask your confirmation of formatting the hard drive.
- No software installation required, no system crash
- Support IDE, SATA and SCSI HDD, Disk Array, and NAS for mass storage or backup
- Embed Linux DVR system on DOM for reliability and stability
- High-speed and high compression rate MPEG-4 codec for recording
- Separated MPEG-4 encoder for fast network remote surveillance
- Flexible recording control per camera, continuous recording, scheduled recording, motion detection recording, digital-input recording, pre-alarm recording and cyclic overwrite
- Quick video search by date, time, camera, events, tag or motion.
- USB storage, Memory card, CD-RW and DVD+/-RW for video clip export
- Pan/Tilt/Zoom cameras control
- User access is controlled by the administrator with multiple security levels
- Complete remote-site monitoring, playback, video clip export and setup functions through Windows IE browser, no extra software required

8 Channel Full D1 Video & Audio H.264 RISC Compression Card

Model: 41DH0804HA

This video and audio compression card uses RISC chip that with hardware H.264 algorithm compression, and that reproduces excellent image quality and achieves high compression ratio for the best possible performance and price. This card can provide 8 channels 4CIF(D1)/2CIF/HD1/CIF/QCIF with 25/30fps encoding and dual-stream encoding.

Features -

> H.264 hardware compression algorithm for high compression ratio and excellent image quality.

> 8 channels 4CIF(D1)/2CIF/HD1/CIF/QCIF real-time recoding and dual-stream supported.

> Support 4CIF/CIF/QCIF real-time preview for up to 64 cameras.

> Video detection supports Motion detection, Video loss and Video block.

> Support OSD/LOGO overlay, Privacy masking, Frame rate and Bit rate dynamically adjusted etc.

> Provide full SDK with Windows and Linux operation system.

> Compatible with full range of Dahua's Compression card.

Model: 2IPDS752MFE

2.0 Megapixel

Linux OS embedded

TI DaVinci hardware compression

H.264 dual stream video compression

HD720P (1600x1200) Video Preview

SD card for local storage

Supports IE browser for network preview

Motion detection and PC client notification

Supports PoE (Power over Ethernet)

Linux OS Embedded

TI DaVinci Hardware Compression

1 channel Audio Compression

Support High Resolution Video Preview: 1600 &times; 1200 Pixels

Support HD720P / 4CIF / DCIF / 2CI / CIF / QCIF Real Time Compression

Support SDHC Card for Local Recording

Support Dual Compression Stream

Support Motion Detection, and Notification on PC Client

Support both Variable Bit Rate and Variable Frame Rate

Support TCP/IP, HTTP, DHCP, DNS, RTP/RTCP, PPPoE, etc.

Support IE for Network Preview

Support HIKVISION Watermark

Support Sensor Alarm Input and Relay Output

Support Network Intercom Function

Compatible with Current HIKVISION DVR / DVS SDK and Client Software

5 Megapixel IP Camera (2IPFHB600)

Model: 2IPFHB600

5 Megapixel IP Camera

- 5-megapixel CMOS Sensor
- Real-time H.264, MPEG-4 and MJPEG Compression (Triple Codec)
- Simultaneous Multiple Streams
- Built-in SD/SDHC Card Slot for On-board Storage
- Built-in high sensitive microphone
- Supports ONVIF Standard to Simplify Integration and Enhance Interoperability
- Supports H/W Watchdog

System

CPU TI DM365 SoC Flash 32MB RAM 128 MB

Image Sensor

HIGH QUALITY 5-MEGAPIXEL 1/2.5" CMOS

LENS

SUPPORT AUTO IRIS C/CS MOUNT LENS

Video

H.264: 30 fps at 1280x720 , Highest Resolution: 8 fps at 2592x1920

MPEG4: 30 fps at 1280x720 , Highest Resolution: 8 fps at 2592x1920

MJPEG: 30 fps at 1280x720 , Highest Resolution: 8 fps at 2592x1920

Compression: H.264, MPEG-4 & MJPEG Streaming:

Triple Codec (H.264/MPEG-4/JPEG) Selectable

Support Simultaneous multiple streams

BNC connector for video output ; NTSC/PAL video output switch

Image Settings

Adjustable image size, quality, and bit rate

Time/Date stamp and text caption overlay.

Configurable brightness, contrast, saturation, sharpness, white balance= and exposure

AGC/AWB/AES/BLC

Audio

Format MPEG-4 AAC audio encoding

G.711 audio encoding

Built-in high sensitive microphone with 5M maximum audible area. Supports audio mute

Support External Speaker for Alarm siren

Networking

INTERFACE 10/100 Mbps Ethernet, RJ-45

SUPPORTED IPv4, TCP/IP, DHCP, HTTP, FTP, SMTP, RTSP, SNMP, DNS PROTOCOL

SUPPORTED Microsoft Internet Explorer 6.0 or above

Digital Video Server 16CH D1 Resolution [OrderOnly] (41DS6516HFI)
Model: 41DS6516HFI
Digital Video Server
This Audio/Video Server allows the analog signal to be digitized and then stored in hard disk or transmitted via network, capable of encoding up to 16 channels of video/audio simultaneously at D1 resolution. Adopting the latest embedded

processor, the video/audio server provides more powerful capabilities in audio/video encoding; standard 1U chassis design maintains easy installation; adoption of newest HDD storage technology ensures safe and reliable data storage; multiple network transmission protocols supported; and code downloaded in FLASH ensures high stability and reliability of system performance.

Features

Support H.264 encoding standard at PS and RTP customized encapsulation

16 audio/video inputs, up to 4CIF resolution; no connection to HDD.

16 audio/video inputs; up to 4CIF resolution real time supported, with 2CIF, CIF and QCIF selectable, and 1/2/4-channel support DCIF; no connection to HDD.

Formats

• H.264 encoding standard

• Encoding at 4CIF, DCIF, 2CIF, CIF and QCIF resolutions

• Dual stream encoding

• Cycle recording or non-cycle recording

Specifications

Model

41DS6516HFI

Video/Audio Input

Video Compression: H.264

Video Input: 4-ch

Video Input Interface: BNC (2.0Vp-p, 1k Ohm)

Audio Input: 4-ch

Audio Input Interface: BNC (2Vp-p, 1k Ohm)

Voice Talk Input:

1-ch RCA(2.0Vp-p, 1k Ohm)

Video/Audio Output

Recording resolution:
4CIF/DCIF/2CIF/CIF/QCIF

Video Loop Output:
8-ch, DB26

Frame Rate:
25(P)/30(N)

Video Bit Rate:
32Kbps~2048Kbps, or user-defined (Max.3Mbps)

Stream Type:
Video/Video&Audio

Audio Output:
1-ch RCA(Linear electrical level, 600 Ohm)

Dual Stream: Support

External Interface

Network Interface:
1 RJ 45 10M/100M/1000M adaptive Ethernet Interface

Serial Interface:
1 RS-485 interface, 1 DB9 RS-232 interface

Alarm Input:
16-ch

Page 394/538

HIKVISION IP CCD Camera (2IP892PF)

Model: 2IP892PF

As a simple way to realize network surveillance, the IP camera can directly connect to a network by a network cable. Images are compressed in H.264 compress format before pass the network cable to the other side. The IP camera comes with a built-in web server as the nature of the network device.

Brand Hikvision

Model Code 2IP892PF

Colour Type Colour

Chip Inch Size 1/3

Resolution 480 TVL

Sensitivity Lux 0.1 /F1.2

Auto Iris Yes

Lens Mount C/CS

Motion Activated Yes

Picture Elements HxV 704 x 576

Network Properties Image Frame Rate: 25fps

Interface: RJ45 10M/100M Ethernet Port

Network Protocols: TCP/IP, HTTP, DHCP, DNS, RTP/ RTCP, PPPoE

Electronic Shutter Range 1/50 ~ 1/100,000

S/ N (Signal/ Noise) Ratio dB 48

Signal Mode PAL, NTSC

Compression Type H.264

Electrical Specifications Power Consumption: 4 W

Voltage: 12 VDC, PoE

**Quad Video Multiplexer (1MTPLX4)**

Model: 1MTPLX4

Video multiplexers allow you to take multiple security camera signals and combine them into one single channel. This allows the signals from all cameras to be recorded on a recording device that has only one video input, such as a VCR.

A quad processor allows the system to display up to 4 cameras on one screen, outputting to a TV, security monitor or a VCR. It is ideal for use in shops or offices, homes or warehouses where four cameras are required in monitoring simultaneously in a quad split screen.

It is designed to line up on a multiplug without blocking each other.

\$31.05

12V DC Lithium Rechargeable Battery(7RP48A)

Model: 7RP48A

12V DC Lithium Rechargeable Battery for CCTV Cameras and Mini Pinhole (1248A)

Features

Portable rechargeable battery for 12V CCTV cameras.

Provides up to 4800mAh of power (up to 10 hours).

Perfect for use with a wireless CCTV Camera.

Works with DC 12v Infrared and pinhole cameras.

Great portable CCTV Camera System solution.

Description

This is a great li-ion (lithium) battery designed for CCTV cameras and 12V equipment. It is perfect for use with any wireless CCTV camera system. The battery will provide up to 10 hours with some of our security cameras and because it is fully re-chargeable, this lithium CCTV battery can be used over and over again.

This re-chargeable 12V DC lithium CCTV battery uses a jack type connector with a 5.5mm outer diameter and a 2.1mm inner diameter, making it is compatible our with long range security camera equipment or our short range CCTV camera kits. This means you can place your security cameras where there is no local power supply and have them transmit back to your receiver continuously for up to 10 hours* (depending on camera model and power requirements).

This 12V lithium battery will also work well with our wired and pinhole cameras if you require to build a potable hidden spy camera recorder if you are a private investigator or if you are a property surveyor and would like to have a portable camera system for checking piping, lofts, drains etc.

It is a helpful device when a technician does trouble shooting on a security camera. The battery will be able to supply 12V DC directly to the camera.

Specifications

Item Code: 7RP48A

Model: T-1248A

Capacity of Battery: 4800mAH

Duration of Power Supply: Up to 10 hours

Input Voltage: 12.6V

Output Voltage: 12.6 - 10.8v

Warranty 6 months

We can supply a 12V DC power adaptor as a charger.

Warning:

Do not attempt to open, disassemble, or service the battery pack.

Replace only with the battery pack designated for this product.

To avoid the decrease capacity, the battery must be used regularly;

Do not store or use the battery in environments where extreme hot or moisture is present. Battery should be used in a cool, dry place.

Availability: low quantity

\$75.90

18 Channel 10 Amp 12V DC Power Supply with Fuses & Lock(7PA10AB)

Model: 7PA10AB

A good CCTV system needs a reliable power supply system. This 18 CH power distribution box should help setting up a tidy and long lasting CCTV security system.

Specifications:

Item Code: 7PA10AB

Channel number: 18

Each channel output: 500mA max

Input voltage: 240V AC, or 90~260V AC 50-60Hz

Output voltage: DC 12V, 11-13V adjustable

Output current: max 10 amp

Over voltage protection: yes

Over current protection: yes

Short circuit protection: yes

Power surge protection: yes

LED power indicator: yes

Dimensions:

The unit comes two keys for the box lock, and 2-3 spare fuses.

Its User Manual attached to the back of the cover.

Item Name: 18 Channel 10 Amp 12V DC Power Supply with Fuses & Lock

Availability: medium to high

Indoor Dome IR Illuminator 160 Degrees (45IR120A160)
Model: 45IR120A160
The main feature of the infrared illuminator is wide angle of infrared beam.
Best for indoor application.
There may be an existing camera without infrared. This illuminator will largely

improve the nightvision for the camera if the camera is sensible to infrared wavelength 850nm.
Another application is to light up an area where a covert camera is hidden somewhere.

**Infrared Illuminator 60 Degrees 40 Meters Range (45IR8100A60)**

Model: 45IR8100A60

Weatherproof Indoor/Outdoor 850nm Infrared Led Illuminator

45IR8100 weatherproof indoor/outdoor Infrared LED Illuminator emits infrared light at a wave length of 850nm making it ideal for all indoor/outdoor near-darkness or total-darkness video surveillance applications. 45IR8100 is compatible with our Color Day/Night cameras and our B/W cameras.

The light projected from an 850nm Infrared Illuminator is invisible to the human eye however you may see a dull red glow when looking directly at the Infrared Illuminator.

Item Code: 45IR8100A60

Features

Built-In 140 850nm Infrared LEDs

Completely Invisible Infrared Lighting

CDS Auto Control (automatic ON/OFF via light sensor)

Up to 60 degrees beam 40 meters range

Weatherproof Anodized Aluminum Case (suitable for indoor/outdoor use)

Power supply 12VDC 1500mA (AC adapter included)

Power Consumption 18W

Weight 0.85kg

Dimension 170mm x 130mm x 110mm

The package includes

1 x IR Illuminator

1 x mounting Bracket

12-month Warranty

Out of stock.

IR Illuminator

Model: 45IR216A30

• Accurate current circuit to carefully control

LED output, delivering consistent illumination
power and long working life

• Auto Day/night switch, turn on at darkness
to save energy

• Long range viewing distance 120 meter at 45°;

Tested by 1/3" SONY CCD camera

- 850nm semi-covert
- IP65 waterproof and dustproof
- The advantages of strong and safety housing
- Super bright infrared ray

Outdoor 20M IR Illuminator (45IR8021A30)

Model: 45IR8021A30

The infrared illuminator comes with weatherproof casing, running on 12V DC that can be drawn from a camera power supply cable.

This illuminator will largely improve the nightvision for the camera if the camera is sensible to infrared wavelength 850nm.

One application is to light up an area where a camera is hidden somewhere. Many end users worry about cameras would being vandalized when the grow infared leds may help vandals to find cameras in the dark.

Model: 92BKPLT
Camera Bracket - Plastic
Item Code: 92BKPLT
\$5.75

Camera Housing - PVC (93HSE803_185)
Model: 93HSE803_185
PVC camera housing, 185mm long
Item Code: 93HSE803_185
Better than metal housing, no rusty issue, no problem close to beach
\$36.80

Camera Housing - PVC (93HSE803_250)
Model: 93HSE803_250
PVC camera housing, 250mm long
Item Code: 93HSE803_250
Better than metal housing, no rusty issue, no problem close to beach
\$39.10

Camera Housing and Bracket (93HSE803A250)
Model: 93HSE803A250
A PVC housing for a box camera, has 250mm length from the back to the front glass.
A matching heavy duty bracket comes with the housing with the length of 280mm for wall mounting.
The housing comes with weather proof and salt water proof features.
\$39.10

Camera Long Bracket for Wall or Ceiling (92BK190)
Model: 92BK190
Camera Long Bracket for Wall or Ceiling
Length 190mm
Used for box cameras, or waterproof cameras.
There is an extension part available for option at extra cost.
\$9.20

Camera Long Bracket for Wall or Ceiling (92BK230)
Model: 92BK230
Camera Long Bracket for Wall or Ceiling
Length 230mm
Used for box cameras, or waterproof cameras.
There is an extension part available for option at extra cost.
\$9.20

Camera Short Bracket for Wall or Ceiling (92BK165)
Model: 92BK165
Camera Short Bracket for Wall or Ceiling
Length 165mm
Used for box cameras, or waterproof cameras.
\$8.05

Camera Short Bracket for Wall or Ceiling (92BK165C)
Model: 92BK165C
Camera Short Bracket for Wall or Ceiling
Length 165mm
Used for box cameras, or waterproof cameras.
\$8.05

Chrome Bracket with Allen Key (92BK302)
Model: 92BK302
Item Code: 92BK302
The chrome bracket comes with allen key. The allen key will help a camera its final position firmly lock up the positioning.
Solid built for holding a bullet camera or a body camera. It is best used for indoor. Both wall mounting and ceiling mounting are suitable.
Base diameter 60mm
Max length 90mm
The product photo shows different sides of the bracket. The price is for one unit.
\$8.05

**Heavy Duty Outdoor Camera Long Bracket (92BK280)**

Model: 92BK280

Heavy Duty Outdoor Camera Bracket

Item Code:92BK280

Applications: Outdoor big cameras, camera housing, Pan/Tilt unit

Mounting: wall

Length: 280mm

Coating: nicely painted

Available: medium

\$26.45

Housing Fixing Stand (92BKFIXSTAND)
Model: 92BKFIXSTAND
97 x125 x 92
Specification-
Angler Adjustment
Vertical: -60° to +20°;
Horizontal: ±60°; (120°) when using 2 mounting holes
(Can be set freely for up to 360° when it is mounted)
Applications
Outdoor (except seaside and industrial districts where the unit is subject to corrosion, and heights that expose the unit to strong wind pressure)
Dimensions

\$6.90

Nice & Heavy Duty Bracket (92BKBLA03)

Model: 92BKBLA03

Well coated - great for outdoor, high rating of weatherproof

Item Code: 92BKBLA03

Metal head other than plastic or PVC head, ensures its heavy duty, holding a camera housing without problem.

The bracket can be wall mounted or ceiling mounted. The holding head is swivel but easy to be fastened and locked.

Dimensions:

Base to arm 240mm

Base Diameter 100mm

Arm 140mm

\$26.45

Pole Bracket for CCTV Camera (92BKPOLE)
Model: 92BKPOLE
Pole bracket
Item Code: 92BKPOLE
Turn the round surface to flat then you can install a camera bracket or a dome camera on it.
\$52.90

Wall Mounting Camera Bracket (92BKT)
Model: 92BKT
CCTV Security Surveillance Camera Bracket
Item Code: 92BKT
Best for Wall Mounting
Horizontal adjustment: 180 degree
Vertical adjustment: 90 degree
160mm long
It can hold a box camera, a bullet camera and a heavy bullet camera but not housing.
\$9.20

Wall Mounting Camera Bracket 200mm (92BK200)
Model: 92BK200
Wall mounting CCTV camera bracket
Heavy Duty CCTV camera bracket
Item Code: 92BK200
It can be used to hold a housing, waterproof IR camera (big). It comes with a standard screw for cameras.
Length: 200mm.
The product photo shows two sides of the bracket. The price is for one unit.
\$21.85

Weather proof camera bracket (92BK607)
Model: 92BK607
Outdoor Camera bracket, weather proof
\$9.20

Cables & Connectors

1.5M BNC to RCA cable(8CB15RCA)
Model: 8CB15RCA
1.5M BNC to RCA coax cable, used to connect CCTV,Audio and Video signals
\$9.20

2 Meters Network Cable
Model: 8NW2M
Network cable. 2 meters.
\$8.05

2 Pair Stranded Cate 5E Cable (8C5E2P_Grey)
Model: 8C5E2P_Grey
2 Pair Stranded Cat 5E cable, 110MHz, 24 AWG.
305 metres per roll. The price is for one roll.
\$207.00

2.1-2.5mm Connector (Socket) 91PLUGF
Model: 91PLUGF
2.1 - 2.5mm Power Supply Connector (Socket Side)
The image shows two sides.
Due to its special design, it also takes 2.5mm plug/connector without a problem.
Easy to screw up two wires. It has '+' and '-' marks. The central is usually positive. But up to you to change it.
Connect it to the power supply side of a CCTV composite cable. A power supply can plug in directly. It can be used for RS485 A and B connectors.
180 pcs are available.
\$2.88

2.1mm Connector (91PLUGM)
Model: 91PLUGM
2.1mm Power Supply Connector (Plug Type)
The image shows two sides. The price is for one unit.
Easy to screw up two wires. It has '+' and '-' marks. The central is usually positive. But up to you to change it.
Connect it to the power supply side of a CCTV composite cable. A power supply can plug in directly. It can be used for RS485 A and B connectors.
200 pcs are available.
\$2.88

305M Cat5E Ivory STP Cable (8C5ESTP_ST)
Model: 8C5ESTP_ST
Category 5e FTP Stranded Cable, 26 AWGx4P, PVC
<p>STANDARD COMPLIANCES</p> <p>All proposed Category 5e requirements as per ANSI/TIA/EIA, ISO/IEC, and CENELEC EN Standards, ANSI/TIA/EIA 568-B.2 Category 5e, ISO/IEC 11801 Class D+ 2nd Edition CENELEC EN 50173-1 IEC 61156-5, 2nd Edition CENELEC EN 50288-2-1 for Solid Cable IEC 61156-6, 2nd Edition CENELEC EN 50288-2-2 for Stranded Cable</p> <p>APPROVALS</p> <p>UL/cUL Listed</p> <p>3P/ETL Certified ANS/TIA/EIA-568-B.2 Category 5e testing performance requirements.</p> <p>305 meters per roll. The price is for one roll.</p> <p>\$340.40</p>

Alarm Cable CAB36X 4cX0.2mm2 (8CB4C2)
Model: 8CB4C2
4 cores x 0.2mm2 Stranded tinned budget alarm cable.
100 meters per roll. The price is for one roll.
\$57.50

BNC Coaxial Cable 0.5M(8CB15BNC)
Model: 8CB15BNC
0.5 meters RG59 coaxial cable with BNC M connectors at two ends.
\$9.20

BNC M with Screws (91BNC_SCREW)
Model: 91BNC_SCREW
BNC male connector with screws
There are positive and negative marks on the connector. It is suitable for DIY people who do not have a crimping tool or a soldering tool.
\$3.45

BNC RG59 High Quality (91BNC59)
Model: 91BNC59
BNC CONNECTOR RG59
\$3.45

BNC Soldering connector (91BNCS59)
Model: 91BNCS59
One Crimp BNC Male connector
There are 3 types of BNC M connectors available, RG58, RG59, and RG6.
\$3.45

BNC to BNC 50cm(8BNC2BNC50)
Model: 8BNC2BNC50
 1 X BNC Male to BNC Male (50CM)
Features:
 Brand New, High Quality.
 The coaxial cables are used in communication and signal control system, with the
 function of transmission for Notebook, PDA, GPS active Antenna etc. It ensures
 low losses and low propagation delays. This BNC Cable is to connect up video
 systems which require BNC connectors. It has a braided cable and fully molded
\$8.05

CAT5E SOLID WHITE 305meters (8C5SOLW)

Model: 8C5SOLW

Cat5e Bulk Cable Solid 24 AWG UTP 305 m (1,000 ft.) Easy Pull Box White

Unshielded Twisted Pair

Can be used in riser with raceway/fireproof shaft

Standards tested to meet 3P certification standards

Meets or exceeds current CAT5e proposed standards

Track remaining cable available for next job

\$175.95

CCTV Camera Cable - Video and Power, 10 Meters(8CC10)

Model: 8CC10

CCTV Camera Cable - Video and Power, Premade with Connectors

Ready for DIY people or security installers. The composite cable comes with

RG59 video cable and power wire, finished with BNC connectors and power connectors

at two ends by a professional cable manufacturer. Its good quality can be seen

by its specifications. The central conductor is 99.99% copper. The PVC jacket

is not from recycle material.

RG59 Coax Cable Specifications:

0.6mm 99.99% oxygen free copper rod

Foam PE 3.8mm

AL 100% shielding

32 x 0.1mm 99.99% oxygen free copper braid shielding

5.9mm Black hi-end quality PVC jacket

\$3.45

CCTV Composite Cable (Video & Power) 100M	
Model: 8CB100GB	
CCTV composite cable - RG59 coaxial cable plus power wires	
It comes with serial number marks every meter. So we cut it into 100 meters and 50 meters.	
One box includes 200 meters per roll as per photo. It comes with serial number marks every meter. We prepare 100 meters and 50 meters for sales.	
The price is for 100 meters.	
Specifications:	
[1] The 99.99% copper central conductor has a diameter of 0.73mm;	
[2] PE dielectric between the central conductor and braid shielding;	
[3] 0.12mm x 96 BC braid shielding;	
[4] Black hi-end quality PVC jacket;	
[5] Pair wire including 7 x 0.2mm BC conductor, hi-end quality PVC insulation and jacket.

Outdoor Cat5E without GEL
Model: 8C5ESOLOUT
White Colour, 24 AWG, ISO/IEC 11801, EN 50288&TIA/ELA 568B. 2 ETL/3P Verified, 350MHz.
Without GEL.
305M per roll.
\$385.25

Outdoor Gel Cat5E Cable for Outdoor Security Camera (8C5ESOLGEL)
Model: 8C5ESOLGEL
Cat 5e SOLID GEL filled outdoor cable - BLACK Colour, 24 AWG. ISO/IEC 11801, EN 50288 and TIA/ELA 568B.2 ETL/3P Verified.
100 meters (500 meters per roll)
Type: CMX
Temperature rating: 60 degrees
Many coaxial cables can not be used in outdoor application as temperature and water.
This cable is largely used for outdoor cables of CCTV cameras. Video will be transmitted by video baluns. Commonly this cable is used for a distance between 100 meters to 500 meters. Less than 150 meters, a passive baluns would be used. Over 150 meters less than 300 meters, a pasive baluns plus an active baluns would be used. Over 300 meters, one pair of active baluns is required. The cable is largely used for factories, and rural systems.

**Audio Pickup Device - Microphone (47Y301MIC)**

Model: 47Y301MIC

Audio Pickup Device - Microphone

Model Number: 47Y301MIC

It is listen equipment that has adjustable sensitivity. It is suitable for different types of Mic supervised listening environments such as bank, prison, examination place, shopping mall and factory, etc. It is low noise, HIFI, wide range operation voltage, small electricity consumption and long distance transimittion. It can be used in supervised TV and security protection system or used with camera to moniter sound within 5~100m2 range.

Model

47Y301MIC

Power Supply

DC6V~12V

Dissipation Circuit

10mA

Frequency Responsde

300~5500Hz, Output signal

Out Impedance

600 Ohm

Out Level

0 ~ 6V

Ground Loop Isolator (49GB001)
Model: 49GB001
<p>The Coaxial Video Ground Loop Isolator Ground Loop Isolator is a passive device which can reduce Ground Loop Interference with CCTV Video signals and can be easily installed in a new or add to existing systems.</p> <p>It's useful where a Video signal is transmitted via cable between points with difference ground potentials. Differences in ground potential are typically caused by unbalanced power line loads. It use to prevent video signal distortion caused by video ground loops, eliminates picture tearing, humming bars, cross talk and rolling.</p> <p>Prevents power cables laid by others interfering with the CCTV system. Built in TVS (Transient Voltage Suppressors) for surge protection, built in Video Balun, which perfect to work with DVR to immunity DVR interference, for extra interference rejection.</p>

VGA Video & Audio Extender (Receiver Transmitter) Kit

Model: 43VGA1EXT

Product: VGA Video & Audio Extender (Receiver Transmitter) Kit

Model Number: 43VGA1EXT

Audio and Video (VGA) signal extenders, CAT5 twisted-pair can be sent through a VGA video signal up to 100 meters to 300 meters. In pairs to extend the VGA signals are usually used as a home or commercial use, in order to quickly and cost-twisted-pair line to replace the expensive and large VGA signal line. so that the signal VGA monitor can be an extension of the standard twisted-pair link to PC side. can be widely used in the computer field and monitoring, security, multimedia teaching system, demonstration hall, kiosks, screen information on advertising card, overhead projection systems, PC series systems, the exhibition shows a variety of occasions such as PC backplane, with good stability, image clarity and so on.

¦Could host computer's audio and video (VGA) interface to extend the best as far as 100 meters ~ 300 meters

¦Proximal host computer, but also provides a VGA video interface for users to use

¦The use of a single cable (CAT5) to extend the low cost

¦Support VGA video extension, remote display without delay

¦No driver installation is simple and convenient to use can be cascaded to strengthen the extension of the distance

¦Image quality, product performance, strong anti-interference

¦Reserve adjustment switch, customers can adjust images according to the length of network cable

Model

43VGA1EXT

Extended Range

100 meters ~ 300 meters

Interface

VGA, Audio, Input, Output

Vehicle Security

Vehicle CCD Camera Recorder D1 Real Time (46FHVCR01C)

Model: 46FHVCR01C

Vehicle CCD Camera Recorder D1 Real Time

This CCD camera recorder performs excellently in a bus, a tax or a private vehicle. It can face outside as well as inside. The high resolution picture quality plus real time recording 25fps offer a cost effective surveillance solution for all sorts of vehicles. The device has received positive feedback from New Zealand end users. It comes with 8GB CF card but it supports up to 32GB CF card.

Features

Built.in 1/3" SONY CCD & DSP element.

High resolution, Low lux, high -speed reaction, much more advanced than CMOS type.

High image quality with good performance, likes professional photography of specialty.

MPEG4 compression format, minimum video file capacity.

Full digital signal transmission, and the least distortion.

Chip compressed with high speed, caused high quality and fast reaction in image. (30 D1/SEC NTSCs; 25 D1/SEC PALs).

The image is stored with CF card, vibrations free totally while vehicle being driven.

Video image can be viewed simultaneously when connect to monitor.

Complete record of time /date can be shown on the screen while is on the process of playback.

Full & reliable recording event lists, easily search.

Friendly use for operation of PC viewer.

Vehicle Video Recorder 2CH (2MFHE07)

Model: 2MFHE07

Features:

1. Suitable for all personal vehicle, taxi, bus, truck……
2. Small size, easy installation and dismount, it does not affect the driver's line of sight.
3. Insert the card and power on to start recording without additional operating.
4. Simultaneously recording interior and exterior condition.
5. Having full time, date recording and display on the screen directly.
6. Recording driving condition, sound, G-Sensor and GPS data.
7. Front view angle approx. 120 degrees. Back view angle approx. 170 degrees.

8. Recording track of driving routes which can be shown on Google Map when we play the video.
9. Micor SD card Class 6 or above recommend.
10. G-sensor sensitivity can be adjusted according to road situations. When detect a strong shock, system will start emergency recording and keep the files without being overwritten.
11. Professional file formats, without built-in lithium battery, no needs to afraid of heat and bursting concerns, it is the real black box.

SPECIFICATIONS

Sensor Device

Forward facing lens: VGA CMOS Sensor.

Backward facing lens: VGA CMOS Sensor.

View Angle

Outside vehicle approx. : 120 degree

Inside vehicle approx. : 170 degree

Voltage

Machine Start: 5V \pm 5%, 600mA.

Operating: 500mA (IR on) / 350 mA (IR off).

Remark: Please use 5V \pm 5% 1A, Cigarette lighter adapter.

The machine needs 4.8V to start.

Operating Temp.

-15 $^{\circ}$ C~+65 $^{\circ}$ C(Inside Vehicle).

Storage Device

Silicon Power or Transcend Micro SDHC card. Class 6 or above recommend (up to 32GB).

Recording Frame

Forward facing lens: 640x480 (highest resolution)

Backward facing lens: 640x480 (highest resolution)

NTSC & PAL : 15 fps

Auto record when power up system

Recording content

Date, time, image, sound, G-sensor data, GPS data.

Recording

Format

Specific format for software player.

Microphone

High Sensitivity Microphone.

Time Setup

Auto-calibrating by GPS signals. If GPS is not available, the built-in clock will be used.

G-Sensor

Internal 3D G-Sensor.

Input Device

- (a) Emergency Button : For emergency recording. Glows in nighttime.
- (b) Red light: Recording indicator. In emergency recording, it flashes more frequently.
- (c) Green light:
Flashing: Searching GPS signals.
Light on : GPS positioning ready
Remark: When IR turns on, the LED light will be dimmer.

Description

- (a) Please do not plug the power in both micro-USB terminals.
The machine might be damaged.
- (b) SD card must be formatted by special player first to be used properly.

Important Notice

- (a) GPS positioning speed will be affected by weather, window films, etc.
- (b) Window film may contain metal substances and have impact on GPS positioning.
- (c) IR starts according the environment lux situation (weather, windows film, etc.)
- (d) When machine starts, it will be in the nighttime mode first for around 30 seconds then switch to daytime mode if the environment lux is enough
- (e) After formatting, the remaining capacity will show 80MB.

Bosch Alarm 880 KIT PLUG(99BSH880KIT1D)
Model: 99BSH880KIT1D
<p>Bosch Alarm 880 KIT PLUG</p> <p>Bosch Alarm Solution 880 KIT-1D, with BLP1'S & SAT 9 & PLUG PACK.</p> <p>High security, high functionality, high quality- Bosch's Solution 880 Ultima Alarm System is the pinnacle in alarm technology. This alarm can acheive almost any conceivable setup, and can even act as an economical&nbsp;home automation controller.</p> <p>The Bosch Alarm 880 KIT security system provides sophisticated electronic surveillance for your home or business. Incorporating the very latest in microprocessor technology, the Bosch Alarm 880 KIT has unsurpassed features combined with superior reliability and performance.</p> <p>The Bosch Alarm 880 KIT has been designed with flexibility and individual style in mind. BOSCH Security Systems have a complete range of products to suit your home or business, providing security you can rely on.</p> <p>All of the components of the Bosch Alarm 880 KIT system have been designed to blend into any home or office environment.</p> <p>Using advanced wireless technology, sensors can be fitted in the best location without the need to run unsightly wires. Codepads can be installed at entry points for your convenience or you can control your system using keyfobs, which attach to your keys.</p>

For businesses, an automatic arm feature means even if your staff forget to arm the system when leaving, it arms itself guaranteeing continuous protection.

STAY and AWAY modes ensure total user control.

The AWAY mode allows you to arm all areas when leaving the premises.

The STAY mode arms only the perimeter which allows you freedom to move inside the building.

If programmed, automatic call diversion will automatically divert your calls to another number when you leave your premises. When you return and disarm call divert is automatically cancelled.

Never miss that important call again.

Flexibility

Your Bosch Alarm 880 KIT System can include many time saving options.

If you have difficulty remembering access codes, you can use a small keyfob allowing one button operation for arming and disarming. A selection of remote codepads are available including both LED indicator and LCD type.

All codepads are backlit making them easy to see and use, day or night. Your keyfob not only provides a convenient and fast way to arm/disarm, it also has an auxiliary button which if set up by your installer can operate your garage doors, security lights etc, increasing your level of security and of course, your peace of mind. Your keyfob allows you to arm in both stay or away modes includes a panic alarm function.

A Range of Options

Ask your security advisor about the range of options available for your Bosch Alarm 880 KIT system that can increase your level of protection and add to your peace of mind.

Security you can rely on.

Tradition of quality and innovation

For over 100 years, the Bosch name has stood for quality and reliability. BOSCH Security Systems proudly offers a wide range of fire, intrusion, CCTV, management and communication systems and components to help you find the solution for any application. We are the global supplier of choice for innovative technology backed by the highest level of service and support. When you need solutions you can rely on, choose BOSCH

Standard Bosch Solution 880 Ultima Kit comes with:

Bosch Solution Control Panel CC488 (880 Ultima)
Icon Code Pad (CP508LW)
3 x Bosch Blue-line Quad PIR Detectors
External Plastic Siren Unit, including Strobe,Horn & Tamper
12 volt Battery Backup
Internal PEIZO Siren

\$575.00

Bosch Alarm Sol 844 KIT 1D(99BSH844KIT1D)

Model: 99BSH844KIT1D

Bosch Solution844 with 2 x Pet Detectors Security Alarm Package.

This Package is a hardwired, 4 zone burglar alarm system. This alarm system is suited for a lowset building, home or business that do not require any more than 4 detectors. The package prices include, full installation and connection to an existing phone line for "Back to Base" or your mobile phone monitoring. The following devices will be installed:

- 1 x Bosch Solution844 Control Panel.
- 1 x LCD Keypad (latest model).
- 2 x Blueline Pet Detectors (Up to 45Kg).
- 1 x External Siren, Strobe & Housing.
- 1 x Internal Siren.
- 1 x Power Supply.
- 1 x Backup Battery.

\$529.00

Bosch PIR Blue Line GEn2 12M(99BPR2W12)

Model: 99BPR2W12

Bosch PIR Blue line gen2 12MX12M

The Blueline detectors feature an innovative, easy-to-mount, two piece design. All the electronics and sealed optical chamber are incorporated in the front cover which then attaches to the base.

- Blue LED indicator
- 12m x 12m coverage
- User selectable look-down zones

4CH DVR PCI Card (41SC4004)

Model: 41SC4004

Item Code: 41VC4004

DE-VC4000 is a real time MPEG4 compression DVR PCI card, with built-in Philip SAA7132 chips. It comes with 4 channels video inputs working on Windows 2000 or Windows XP operation system. It is designed for software developers or end users. It comes with software of drivers, licensed application and Net Player. The latest version is 3.4 and 4.0. The recorded files can be AVI format that can be played by popular MS Media Player.

It has intelligent video record functions, each channel can be arranged record task, motion detection, or schedule recording. Smart motion detection includes motion area selectable and sensitivity adjustable. It turns the PC to a video network server, viewing in LAN or remotely, by Internet Explorer or software (Net Player).

It is an affordable and reliable DVR PCI card as we have been testing and selecting DVR cards. We started selling this card since Feb 2006. Even other card suppliers agree that a system built with VC4000 is more stable than those newly developed H.264 cards.

SPECIFICATIONS

Number of Video Input
4 channels

Video Input
0.75 - 1 V p-p, 75 ohm

Video Input Format
PAL/ NTSC or CVBS

Logon

Vandal Resistant IR Camera with IR Cut Filter (2VD939RCF36)

Model: 2VD939RCF36

Vandal Resistant IR CCD Camera with IR Cut Filter

It comes with a wide angle 3.6mm lens, 88 degrees field of view.

The camera case is metal, like a Suit of Armor. The enclosure is designed to protect the camera from vandals and criminals. Dome enclosures have become less obtrusive, more stylish and indestructible as the technology has advanced. It is best for outdoor that public is accessible. It withstands high pressure or strike like a hammer. A tiny allen key is required to install or remove it.

Its surface can be cleaned easily. Infrared improves vision at nights, available distance at 20-30 meters. We also found that the camera can be used largely in residential houses. Cables are hidden inside the ceiling, tidy. It is a hot sale camera because it integrates advantages of waterproof, nightvision and vandal resistant.

The waterproof level IP65 allows the camera being installed outdoor completely exposed to weather.

Differently from other nightvision cameras, the camera has an IR Cut Filter.

An IR filter or IR cut filter - is a color filter blocking the infrared light. There are several good reasons for using an IR-cut filter. Using a color camera to achieve realistic colors in white light requires an IR-cut filter.

The color spectrum seen by the human eye is quite limited compared to the spectrum seen by a CCD camera. Especially, in the near infrared region of the spectrum

the difference in sensitivity is significant. This is important to know since many light sources, including the sun, emit infrared light. A CCD color camera in daylight without an IR-cut filter will therefore see a significant amount of infrared light resulting in strange colors. Another reason for using an IR-cut filter is the limited color correction for many lenses. It is difficult to design imaging optics covering both the visible spectrum and the near infrared spectrum at the same time. Therefore, many lenses have different depth of focus for the visible and the infrared spectrum. Anyway, the IR-cut filter cuts away a significant amount of the overall collected light and thereby affects the sensitivity in a negative way. In general, color cameras are one factor less sensitive compared to monochrome (depending on the CCD chip). This is primarily due to the IR-cut filter. [Info courtesy of Jai Camera Solutions]
